Formatting / QA: Looks OK, although copyright should be 2012 not 2008.

English: OK

Basic Overview: OK

Timetable / Gantt chart: Looks a bit odd. some of the activities are long but should be short, e.g. the acceptance testing is only one afternoon, but you have weeks.

UI design: OK, rather basic looking but functionality looks reasonable.

Use cases: Look OK, although should have a description / scenario of each use case.

Risk analysis: OK, although some too specific and could be grouped e.g. flood, fire, act of nature, ... could all be grouped into 1 entry.

Overall: Mostly good. Need to look at Gantt chart again.

Grade indication: A
