QA, formatting/ English: OK. Don't think the "Scope" section is being used appropriately, should say what the documented is/isn't intended to cover. e.g. does specify interfaces, doesn't specify code, etc

Main sections all present: Yes, except table mapping requirements to classes missing.

General comments: Section 2.2 not sure the description of GET and POST methods is clear, and what's this mention of PHP! No, no no!

Sequence diagrams - why such large boxes for the components at the top of each? Should have a title and caption / description for each diagram. The monster diagram seems to have it's arrows missing.

Class diagram: OK. ODA, DOA (Dead on arrival?), DAO??

Dependency description: OK

Interface descriptions: Would have preferred properly formatted javadoc comments. Several classes missing comments.

Grade indication: C
